DISCOVERING VIENNA

In 2018 Vienna has been elected the most livable city in the world for the ninth time in a row.

The historic centre of Vienna is rich in architectural ensembles. In 2001 the city centre was designated a UNESCO World Heritage Site.

Its artistic and intellectual legacy was shaped by residents including Mozart, Beethoven and Freud.

So, apart from being regarded as "The City of Music", Vienna is also said to be "The City of Dreams" because it was home to the world's first psychoanalyst - Sigmund Freud
